Immigration and Asylum

Holyrood Parliamentary Question

Helen Eadie (Cowdenbeath) (Scottish Labour): To ask the Scottish Executive how many (a) UK nationals, (b) people born in the UK, (c) other EU nationals and (d) non-EU nationals were in employment in the (i) public and (ii) private sector in Scotland in each of the last four quarters for which figures are available, also expressed as a proportion. (S4W-1660)

Reply from John Swinney: The preferred data source information on employment in the public sector is the Quarterly Public Sector Employment (QPSE) publication. However, this does not include the level of detail required to answer this question. Data from the Labour Force Survey cannot be used either as some of the estimates required are below the reliability threshold. The Annual Population Survey (APS) can be used to estimate the number and proportion of people in employment within the public and private sectors by nationality and country of birth. As the APS is not seasonally adjusted, comparisons can only be made on an annual basis. Data for the latest three years (from the January to December datasets) is shown in the following table.

Source: Annual Population Survey, January – December, Office for National Statistics.

Notes:

1. Proportions of all working in relevant sector.
2. Proportions may not sum to 100% due to rounding.
3. Proportions are of all aged 16 and over, excluding non-respondents.
4. Levels rounded to nearest hundred.
5. The APS over-estimates the level of public sector employment due to respondent self-classification. Estimates from the APS for January to December 2010 indicate that over the year the number of people aged 16 and over employed in the public sector in Scotland was 702,700. Estimates from the Quarterly Public Sector Employment (QPSE) publication indicates that over the calendar year 2010 the average number of people employed in the public sector in Scotland was 618,800. This divergence is due to private sector employee's being classified in the public sector when they actually work for private sector organisations providing a service to the public sector.

Holyrood Parliamentary Motion

S4M-00680 Christina McKelvie: Management of Dungavel Detention Centre—That the Parliament expresses its deep concern at the awarding by the UK Border Agency of the contract to manage the Dungavel Immigration Detention Centre in South Lanarkshire to the GEO Group; notes that a series of allegations have been made in the USA and elsewhere about incidents of human rights abuses, sexual assault, racism, negligence and assault in facilities managed by the GEO Group; understands that the GEO Group lost a contract to run detention centres in Australia following reported incidences of abuse and mismanagement; considers that the awarding of a £25 million public contract to an organisation with such a history is wholly inappropriate; further considers that the UK

Border Agency is putting at risk the welfare of people detained in Dungavel by placing them in the hands of an organisation with a reported record of abuse and substandard care; believes that protecting the human rights and welfare of people detained there should be the first priority of Dungavel's managers, and calls upon the Home Office to urgently review the decision to award the Dungavel contract to the GEO Group.

to 22,000 girls in the United Kingdom are at risk of being physically and emotionally traumatised by FGM; expresses concern that there has yet to have been a conviction of anyone carrying out this practice nor have there been any prosecutions of British citizens who breach the provisions of these Acts by performing FGM abroad; notes that this in contrast to a reported 100 successful prosecutions by the French authorities, and supports more robust enforcement of the law to punish those who inflict this procedure on children and relatives.
