## Scottish Parliament Election 2011: The Parties and their Policies

Scottish Parliament elections will take place on 5 May 2011. It is important that as many people as possible vote so that the make-up of the new Scottish Parliament and Government reflect the balance of views of the people of Scotland.

There are 129 MSPs in the Scottish Parliament, of whom 73 represent individual [constituencies](#) and the remaining 56 represent eight [regions](#) formed from groups of constituencies.

**Please circulate this issue of MEMO+ among your membership and encourage everyone to vote!**

*For information about how MSPs are elected see [MEMO+ Voting in the Scottish Parliamentary Election](#).*

The Scottish Parliament only has responsibility for **Devolved** issues. Other issues are **Reserved** and are the responsibility of the UK Parliament.

Devolved issues include:

- **The Economy:** Most taxes are decided by the UK Parliament but the Scottish Parliament has the power to vary income tax in Scotland by 3p above or below the UK rate. This power has never been used.  
The Scottish Parliament also has responsibility for the main economic development agencies, including Scottish Enterprise, and for the voluntary sector.
- **Arts, Culture, and Sport** including the 2014 Commonwealth Games which will be held in Glasgow.
- **Education** including nursery, primary and secondary schools, colleges, and universities.

- **Environment** including water quality regulation and issues relating to climate change.
- **Farming and Fisheries** including forestry.
- **Health** including the NHS, ambulance service, dentistry, and public health issues such as alcohol and drug abuse, and smoking. The fire service is also the responsibility of the Scottish Parliament.
- **Housing and Planning**
- **Justice** including civil and criminal law, the police, courts, and prisons.
- **Local Government** including overseeing and funding the work of the 32 local councils.
- **Transport** including public transport, roads, and ferry services.

Reserved issues, about which the Scottish Parliament has no say, include:

- **The Constitution** including the powers allowed to the Scottish Parliament, and, even if approved by a Scottish referendum and by the Scottish Parliament, Scotland would only be able to become independent if this were also to be approved by the UK Parliament.
- **Defence**
- **Foreign Policy**
- **Immigration and Nationality**
- **Social Security** benefits and tax credits.

Each of the political parties has published a manifesto describing what it would do if it wins the election and becomes the new Scottish Government.
